NEW

DRAGFLOW

Aquatech is now the exclusive distributor of Dragflow pumps in Eastern Canada

[Click Here to View Dragflow Press Release](#)

Aquatech now offers this unique pump line and technology to the Canadian market as an exclusive distributor for Eastern Canada (Ontario and Quebec through to the Canadian East Coast).

What's unique?

The Dragflow agitator slurry pumps are specifically designed to pick up solids from stationary, mixing them into a high density slurry and pumping them all in one operation — able to pump as much as 70% solids by weight (up to 5 inch diameter solids)!

Dragflow pumps can cater to the following industries and applications:

- **Dredging/Construction**
Tunnelling Slurry; Sediment removal from Stormwater Management (SWM) Ponds; Harbours and Marinas; Rivers, Channels and Lagoons; Dams; Sand Extraction; Load/Unload Barges and Trenchers; and Submersed Pipelines.
- **Mining**
Pumping Tailing Metals; Pumping Bituminous Sands; and Settling Collection Ponds.
- **Industrial**
Waste Collection Pits; Transfer of Bentonite Slurry; and Pumping Dust Mixture.

To learn more about our Dragflow line, please contact one of our branches for a product catalogue.
