

Electric Drive Dri-Prime® Pumps

6" (150mm) CD150M
Electric Dri-Prime

For maximum performance, choose an electric drive Godwin automatic self-priming Dri-Prime pump. Designed for long lasting durability, the electric drive Dri-Prime pump is ideally suited for both temporary pumping and permanent installations. Perfect for industrial and municipal applications, a permanently installed electric drive Dri-Prime pump will provide reliable, continuous pumping and reduced operating and maintenance costs. Or for temporary jobs where refueling is difficult, an electric drive Dri-Prime pump is the solution. Plus, electric drive Dri-Prime pumps can be customized using a wide range of speeds and impeller trims in the CD (solids-handling, medium head) or HL (high head) ranges of the Dri-Prime pump series.

Industrial Storm Water Sump –
Permanent installation of two 6" (150mm)
HL5M electric drive Dri-Prime pumps

API Separator Sludge Removal –
Permanent installation of two 6" (150mm)
CD150M electric drive Dri-Prime pumps

Wastewater Treatment Plant
Bypass Project – Temporary installation
of twelve 12" (300mm) DPC300
electric drive Dri-Prime pumps

Industrial Wastewater Management –
Permanent installation of two 3" (75mm)
CD80M electric drive Dri-Prime pumps
